Testimonial

Dear Jon,

I feel it would be remiss of me if I didn't write you a testimonial to express my thanks at the continued business support you have given me this year. At the beginning of the year we set some financial targets for me hit and I have consistently broken them month on month. This month I'm potentially on target to do the same again.

I want to thank you again for your support and encouragement in helping me continue to grow my business and I look forward to the rest of what I'm sure will be a successful year.

All the best,
