

08 July 2019

Dear Jon Peterman,

I would like to record my appreciation of your excellent business support over the last 12 months in setting up my new franchisees. From the initial training sessions to ongoing mentoring programs to ensure that they are on the right track to achieve the initial objectives we have set for them. I have found your understanding of the 'business problem' refreshing and the strategies we have developed together have given me and my franchisees renewed purpose and direction.

On a more personal note, the ability to simply share my concerns with a more experienced business expert like you has given me more peace of mind! With the current economic conditions, I am certain that your involvement with my business means that we are better equipped to succeed in the future.

The personal and business benefits gained from working with you are invaluable. The techniques you introduced me to helped me reach sound conclusions on issues I was dealing with. Thank you for all the advice and support you have given over the months.

I would highly recommend Jon Peterman to anyone needs help to get your business to the right track. He will guide you to work on rather than in your business.

Thank you very much!

Kind Regards,

Harsha Rathnayake MBA

Managing Director
